Riddle Me Treasure Hunt Scavenger Hunt Software

I can't begin to tell you how many parties (ours) and many friends have included scavenger hunts because of the program! I can't believe how much use (and fun) I've received from just one purchase. Really, one of the best on-line, leap of faith purchases I've ever made. I love how it keeps be up-dated and improved as well. Nothing bad to say! Super product! -Ruth D.

Just wanted to thank you for such a wonderful product! I had planned an outdoor scavenger hunt for my 8 year old son's birthday party, but yesterday morning we woke up to pouring rain and I had to move the party inside. A quick search on the internet led me to your site and I was thrilled to be able to download and use your product within minutes. I had 3 teams of 8 year olds and one team of 5 year olds. The younger ones were able to participate at the same level because your software allowed us to make their clues easier. EVERYONE had a great time. It took over 45 minutes for the hunt and all the kids (15 of them!) thoroughly enjoyed themselves. Thanks for saving the day! I would recommend your product to anyone. Sincerely, -Amy S.

You made it so easy for me to set up the scavenger hunt with the riddles. Everyone had so much fun and thought I was so clever how I came up with it. :-) LOL..... I told my family that they needed to thank Riddle Me. So thank you Riddle Me from my entire family. -Donna L.
